Subject: planning sheet

oshaactivityplan.doc

Hi Raymond--

For whatever value it may be, I have attached the Activity Planning Sheet that included the literature review that has grown into the Sapphire Group project. The reason Valerie had no project number for it was that Roger and I considered it part of a larger activity. I don't know if the other directors even had activity planning sheets filled out, but we did. I don't think is of much use, but at least you know you have what I have.

Travel safely. I will also be away 8/19 -- 8/29.

Robin
